

ENHANCING SECURITY

RUNAWAY BAY MARINA

SUCCESS STORY

PROJECT: Runaway Bay Marina

INSTALLER: In Connect PTY LTD

PRODUCTS USED

Hikvision
All-in-one solution

Runaway Bay Marina, located on the Gold Coast, is one of Queensland's premier marine facilities, offering world-class mooring, maintenance, and leisure services. As a busy hub for tourists, yacht owners, and local businesses, ensuring the safety of people, assets, and infrastructure is a top priority.

→ CHALLENGE

A powerful cyclone struck the Gold Coast region, causing widespread damage – including the complete loss of the Marina's existing CCTV system. This left Runaway Bay Marina without any active video surveillance during a critical recovery period.

The Marina was facing growing concerns over:

- Unmonitored access to sensitive dock areas
- Vandalism and petty theft during off-peak hours
- Lack of high-resolution footage for incident investigation
- Insufficient night visibility and blind spots in existing system

Complicating matters further, 90% of the Marina's cabling is run underwater, making re-cabling virtually impossible. The site needed marine-grade, corrosion-resistant equipment, including stainless steel mounts and junction boxes.

→ SOLUTION: BRAND NEW CCTV SYSTEM

In Connect was engaged to deliver a full CCTV system replacement. Our approach combined Hikvision's high-performance surveillance solutions with customised engineering and network design to work around the Marina's complex layout and marine-specific requirements. The solution included:

- 64-channel Hikvision NVR
- 32+ Hikvision 8MP ColorVu Hybrid Cameras
- Bullet and turret models with built-in microphones, strobe lights, and motorised lenses
- Excellent low-light performance using DarkFighter technology
- Hikvision PoE Smart Switches
- Western Digital Purple Surveillance HDDs for robust video storage
- Custom waterproof junction boxes and mounting hardware

Due to the underwater cabling constraints, the In Connect team implemented a wireless PtP (point-to-point) network across the Marina.

→ RESULTS

- Full HD surveillance coverage restored across the Marina
- Significantly improved video quality, night vision, and smart alert capabilities
- Stainless steel installations ensure long-term corrosion resistance

The Hikvision system allows for remote viewing, event alerts, and easy incident review.

The Hikvision CCTV solution delivered at Runaway Bay Marina stands as a robust, future-ready security platform for one of Queensland's leading marine facilities.

VSP Security Wholesale, established in 1993, is an Australian-owned and independently operated distributor specialising in video security products and cloud solutions. With over three decades of experience, we pride ourselves on delivering bespoke, innovative, security solutions from vape detectors to cloud solutions.
